Feed for Poultry Profits!

Get the right food and you have the secret—every poultry journal, every department devoted to chicken raising, dwells on this point. Years of constant use by successful poultry raisers have proved that

The Dickinson Standard Brands

are best for little chicks, broilers or laying hens.

Sun Chick Starter

fed during the first 20 days,
makes sturdy little chicks.

Crescent Chick Feed

fed from
three to eight
weeks old,
makes fat,
tender
broilers.

Globe Scratch Feed

keeps
your hens
laying
indus-
triously.

The Dickinson Feeds are prepared and combined under the supervision of experts—men who have made poultry feeding a study. Our ingredients are perfect—only the sweetest, soundest cracked grains and seeds are accepted—and these are sifted and cleaned until they are free from dust and chaff—every grain is nourishing food.

The kind of poultry Dickinson Feeds make is the kind that pays—heavy birds—steady laying hens. Used on the most

famous poultry farms for many years—by the men who know. In addition to "Sun" Chick Starter, "Crescent" Chick Feed and "Globe" Scratch Feed, we make the "Queen" Poultry Mash—a selected ground feed for fowls of all sizes, especially laying hens—and "King" Pigeon Feed, a mixed grain ration especially adapted for squab fattening. Ask your dealer for any or all feeds of the Dickinson line. If he doesn't carry them, write us and we will see that you are supplied.
